

8-0-621 Hydraulic spindle, up to 10 t tension force (thread size G 1/2")

DESCRIPTION

The grease-hydraulic spindle of the series 8-0 is the motor of the Puller and achieves a tension force of 12 t. The hydraulic spindle is suitable for the Pulling of particularly tight bearings, gears, and discs that cannot be loosened with pure muscle power. Thanks to the integrated grease-hydraulics, no external pump is required.

RANGE OF APPLICATION

For pulling off particularly stubborn bearings, gears, and discs that cannot be removed with pure muscle power.

BENEFIT

- A hydraulic spindle enables easy and controlled pulling of particularly stubborn parts with minimal effort

MASTER DATA

GTIN [EAN]	4021176774263
Country of origin	DE
Case material	Tool steel
Series	8-0
Net weight [kg]	1,57 kg
Package contents	1 piece
Packaging Act	PAP 20
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)

SUITABLE FOR

- 12-4_3-jaw puller
- 12-5_3-jaw Puller
- 18-2_Puller
- 20-2_2-jaw universal puller
- 20-20_2-jaw universal puller
- 30-2_3-jaw universal puller
- 30-20_3-jaw universal puller
- 41-5_2-jaw universal puller with swiveling puller legs
- 42-5_3-jaw universal puller with swiveling puller legs
- 205-02_Heavy, 2-jaw tab puller with oscillating and height-adjustable puller legs
- 206-02_Heavy, 3-jaw tab puller with oscillating and height-adjustable puller legs
- 207-02_Heavy, 3-jaw tab puller with oscillating, height-adjustable puller legs and combination cross beam

SPARE PARTS

- 8-01ERS_Wear part set
