

108-3 Cartridge wrench for loosening granulate cartridges with compressed air dryer, for Ø 90-140 mm

DESCRIPTION

The oil filter claw wrenches are spare parts used for loosening oil filters and other round fasteners in craft, industry, and workshops. The extremely strong and durable oil filter claws are capable of safely and non-destructively dismantling even stuck oil filters.

RANGE OF APPLICATION

Replacement part for oil filter removal

BENEFIT

- Universal use even in hard-to-reach places
