

113-130 Handle vise (breit) with fine jaws, max. 7 mm clamping range (overall length 130 mm)

DESCRIPTION

The hand vises with fine jaws of the series 113 are used for clamping particularly fine workpieces in workshops, industry, and crafts. The inside of the jaws is grooved with a prismatic cut, allowing both round and angular parts to be clamped. The series 113 is particularly suitable for delicate work, e.g., on watches, and allows for a precise and delicate working method.

RANGE OF APPLICATION

For clamping particularly fine workpieces

BENEFIT

- Universal applicability in various work situations
- Robust design with flexible joint guidance
- Various versions allow the application depending on the size of the workpiece
- The jaw is very handy and the knurled shaft ensures a good grip.

OPERATION

- Place hand vise on workpiece
- Tighten clamping device by turning the thumb nut

MASTER DATA

GTIN [EAN]	4027474599317
Country of origin	DE
Case material	Tool steel
Series	113-1
Net weight [kg]	0,85 kg
Package contents	1 piece
Packaging Act	PP 05
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)
