

332-110 Wheel punch stamp for digits, with 10 mm font height, 58 - 61 HRC hardness at the engraving

DESCRIPTION

The wheel stamps for digits of the 332 series are used together with a type holder for easy marking of number series in workpieces with a strength of up to 1300 N/mm² in craftsmanship, industry, and workshop. The set has a hardness at the engraving between 58 and 61 HRC. The wheel stamps of the 332 series are particularly suitable for marking stainless steel due to their nickel-plated surface.

RANGE OF APPLICATION

Together with a stamp holder for easy marking of number sequences

BENEFIT

- Due to the beveled viewing edge, the set numbers are readable.
- Durable due to robust and high-quality material

OPERATION

- Use the spacers on the holder to remove the hand punch stamp
- Place the stamp and imprint it into the material using a soft-face hammer

MASTER DATA

GTIN [EAN]	4027474803308
