

450-100 Angle-accurate mitre welding clamp, up to 100 mm clamping range

DESCRIPTION

The mitre welding pliers of series 450 are used for angle-accurate clamping of workpieces during welding or for assembly work in craft, industry and workshop. The cast iron basic body has fixed, cleanly machined clamping surfaces at a clamping angle of 90°.

RANGE OF APPLICATION

For the precise angular clamping of workpieces during welding or

BENEFIT

- Prisms enable clamping for various workpiece shapes
- Due to the movable clamping jaw, the mitre welding pliers are suitable for different material cross-sections.

OPERATION

- Clamp and secure workpieces on both sides
- Release clamping after welding

MASTER DATA

GTIN [EAN]	4027474564810
Country of origin	DE
Case material	Tool steel
Series	450
Net weight [kg]	2,78 kg
Package contents	1 piece
Packaging Act	PP 05
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)
