

469K0800-120 All-steel screw clamp VIRIDIS with handle grip, max. 800 mm clamping range, 120 mm clamping depth

DESCRIPTION

The all-steel VIRIDIS screw clamps with tommy bar from the 469K series are used for pressing together and holding multiple workpieces in crafts, industry, and workshops. With the built-in spring, the screw clamps absorb the vibrations of the workpiece. The 469K series has a tommy bar that allows for particularly tight fastening.

RANGE OF APPLICATION

For pressing together and holding several workpieces

BENEFIT

- Tensile force up to 10,000 N
- Pressure plate with integrated spindle lock prevents loosening due to vibrations on the workpiece
- Smooth-running trapezoidal spindles ensure even higher power transmission
- Numerous variations in the clamping range and clamping depth of clamps make it possible to hold parts of various sizes.

OPERATION

- Place the fixed arm against the workpiece to be held and roughly fix it by moving the sliding arm
- Tighten the spindle by operating the handle to firmly fix the workpiece in place

MASTER DATA

GTIN [EAN]	4027474027872
Country of origin	DE
Case material	Tool steel
Series	469K
Net weight [kg]	3,215 kg
Package contents	5 piece
Packaging Act	PAP 21
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)
