

511-200 Wood clamping clamp 200 mm

DESCRIPTION

The wooden clamps of the 511 series are used for pressing and clamping multiple workpieces. The clamps are specifically designed for wood parts, consisting of a solid top part, bottom part, and eccentric made of beech wood, along with a steel rail. This guarantees ideal handling thanks to the stepless adjustment of clamping pressure via the eccentric lever. The non-slip cork pad prevents pressure marks or other damage.

RANGE OF APPLICATION

For pressing and clamping multiple wooden workpieces

BENEFIT

- Continuously adjustable pressure control via eccentric lever
- Non-slip design, also on curves and edges
- Made from high-quality beech wood and bright galvanized steel rails
- Thanks to wooden parts with a natural surface, it is particularly environmentally friendly.
- Low weight

MASTER DATA

GTIN [EAN]	4027474917685
Country of origin	DE
Case material	Tool steel
Series	511
Net weight [kg]	0,485 kg
Package contents	10 piece
Packaging Act	PP 05
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)
