

690-250 Universal locking pliers with clamping range up to 50 mm, 250 mm total length

DESCRIPTION

The universal locking pliers of series 690 are used for securely holding round, profile, and flat material in workshops, industry, and trade. The locking pliers are not only handy and can be operated with one hand, but also very high forces can be exerted due to the toggle joint mechanism. The series 690 is a versatile model that is suitable for a variety of workpieces.

RANGE OF APPLICATION

For securely holding round, profile and flat material

BENEFIT

- The half-round jaws are particularly suitable for round and flat material
- The knurled screw with fine thread enables precise adjustment of clamping range and clamping pressure
- The one-hand quick-release lever with return spring and pinch protection reduces the risk of injury and speeds up the work process.

OPERATION

- Use the pliers to hold the material
- Adjust the knurled screw and let the pliers clamp automatically

MASTER DATA

GTIN [EAN]	4027474651442
Country of origin	DE
Case material	Tool steel
Series	690
Net weight [kg]	0,65 kg
Package contents	1 piece
Packaging Act	PP 05
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)
