

# 697-280 Locking pliers with clamping range up to 90 mm, 280 mm total length

## DESCRIPTION

The locking pliers of the series 697 are used for clamping, tensioning, and holding profile and flat material in workshops, industry, and crafts. The locking pliers are not only handy and can be operated with one hand, but the toggle joint mechanism also allows very high forces to be applied. The series 697 with its special shape also clamps asymmetrical and bulky workpieces and profiles with high flanges.

## RANGE OF APPLICATION

For clamping, tensioning and holding profile and flat material

## BENEFIT

- Optimal suitable for clamping behind ribs with asymmetrical materials
- The knurled screw with fine thread allows for precise adjustment of clamping range and clamping pressure
- The single-handed quick-release lever with return spring and clamp protection reduces the risk of injury and speeds up the work process.

## OPERATION

- Use the pliers to hold the material
- Adjust the knurled screw and let the pliers clamp automatically

## MASTER DATA

GTIN [EAN]	4027474652357
Country of origin	DE
Case material	Tool steel
Series	697
Net weight [kg]	0,75 kg
Package contents	1 piece
Packaging Act	PP 05
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)
