

698-280 Parallel locking pliers with clamping range up to 90 mm, 280 mm total length

DESCRIPTION

The parallel clamp locking pliers of the series 698 are used for clamping and holding round, profile, and flat materials in workshop, industry, and trade. The locking pliers are not only handy and can be operated single-handed, but the toggle joint mechanism also allows for the application of very high forces. The series 698 with its movable jaws and large support plates ensures excellent clamping effect even with asymmetrical material.

RANGE OF APPLICATION

For clamping and tensioning round, profile and flat material

BENEFIT

- Optimally suited for clamping behind ribs with asymmetrical materials
- The knurled screw with fine thread allows for precise adjustment of clamping range and clamping pressure
- The single-handed quick-release lever with return spring and clamp protection reduces the risk of injury and speeds up the work process.

OPERATION

- Use the pliers to hold the material
- Adjust the knurled screw and let the pliers clamp automatically

MASTER DATA

GTIN [EAN]	4027474652432
Country of origin	DE
Case material	Tool steel
Series	698
Net weight [kg]	0,785 kg
Package contents	1 piece
Packaging Act	PP 05
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)
