

721-1 Chisel holder with anti-roll handguard (Chisel holder 20x12 - 26x13, 26x7, 16 - 20)

DESCRIPTION

The chisel holders made of PVC from the 721 series are used for protection during chiselling and similar activities in craft, industry, and workshop. The shape and design of the green holder protect the user and prevent hand injuries in everyday work. Ideally suited for oval chisels from 20x12 mm to 26x13 mm as well as 8-sided chisels 16-20 mm.

RANGE OF APPLICATION

For protection during chiselling and similar activities in craft, industry and workshop.

BENEFIT

- Gripping and secure form reduces fatigue and increases safety
- Elliptical shape prevents rolling away
- For all chisels from 250 mm length
- Double, extended protection plate guarantees maximum work safety

OPERATION

- Slip the chisel holder over the chisel handle
