

818-150 12-piece hydraulic bearing puller set

DETAIL IMAGE

DESCRIPTION

The 12-piece, hydraulic bearing puller set of series 818-150 is used for pulling ball bearings, roller bearings, inner rings and other flush-mounted parts in craft, industry, and workshop environments when there is not enough space for pulling jaws. As a set of the modularly designed series 800, it enables various hydraulic pulling possibilities while maintaining consistent modularity. In addition to the required puller and complementary side screw extensions, the set also includes the corresponding modules for 2-jaw pulling and separating pulling.

RANGE OF APPLICATION

For pulling ball bearings, roller bearings, inner rings, and other flush-mounted parts in craft, industry, and workshop.

BENEFIT

- Application-oriented compilation for universal use
- By storing them in the box, the completeness of the set can be easily viewed.
- Pullers of series 800 use the same hydraulic spindle and do not require additional accessories
- For series 800, there are numerous easily replaceable and highly combinable individual parts and additions.
- Hydraulics enable a high pulling performance with minimal effort
- The axially operating piston does not rotate in the hydraulic spindle.
- The included side screw extensions extend the clamping depth and allow for quick adjustment to the diverse practical requirements.

OPERATION

- Select desired application type
- Optionally unscrew the support nuts and screw the pulling jaws or side screw of the puller into the separator
- The further operation process depends on the selected device

MASTER DATA

GTIN [EAN]	4021176717796
Country of origin	DE
Case material	Tool steel
Series	818-150
Net weight [kg]	19,39 kg
Package contents	1 set
Packaging Act	PAP 21
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)

SPARE PARTS

- 015270_Side bolt with nut
- 800_short hydraulic spindle
- 800-050_Spindle extension
- 800-100_Spindle extension
- 800-150_Spindle extension
- 818-250_Side screw extension
- 818-279_Side screw
- 818-820_Cross beam
- Y-215-3_Separator for hydraulic PULL/PUSH puller devices
