

974-HSL HSS-Ideal-Shears 260 mm, rechts

DESCRIPTION

The Ideal shears are used for straight and continuous cuts as well as circular pattern cuts on difficult-to-separate sheets. The shears' handles are made of sturdy sheet steel and feature an anti-slip device 2-component coating. The shear head is TiN-coated, providing even higher durability. The blades used are made of high-speed steel, significantly increasing cutting speed. The built-in opening spring ensures easy handling and operation. Thanks to the optimized design and geometry of the shears, even hard-to-reach areas can be accessed.

RANGE OF APPLICATION

For straight and continuous cuts as well as figure cuts on sheets that are difficult to separate

BENEFIT

- High force through force-amplifying lever
- Ergonomic handle for fatigue-free working
- TiN-coated scissors head for higher durability
- Cutting from HSS to increase the cutting speed
- Right- or left-cutting available

OPERATION

- Place the sheet metal at the opened scissor head
- Move the scissor arms up and down until the sheet metal is cut

MASTER DATA

GTIN [EAN]	4027474710279
Country of origin	DE
Case material	Tool steel
Series	974-HS
Net weight [kg]	0,55 kg
Package contents	1 piece
Packaging Act	PP 05
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)
