

671017 Power nut with diameter 30 mm, wrench size 17 mm, thread size M10

DESCRIPTION

For the more force-amplifying clamping of tools and workpieces, as well as driving without great friction loss, KUKKO has developed the power nut. The power nut can be used as a movement thread and is used in fixture construction, as well as in assembly and clamping technology. The nut is also suitable as an auxiliary tool for pressing in or as a clamping aid to generate higher clamping forces.

RANGE OF APPLICATION

For more force-amplifying clamping of tools and workpieces

MASTER DATA

GTIN [EAN]	4021176283345
Country of origin	DE
Case material	Tool steel
Series	670000
Net weight [kg]	0,4 kg
Package contents	1 piece
Packaging Act	PP 05
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)
