

WT-017 Puller assortment – Internal extraction – BASIC

DESCRIPTION

The BASIC puller set for internal extraction is a wall panel equipped with suitable tools for use and storage in workshops and industries. The set includes numerous 2-jaw internal extractors, as well as internal extractors with segmented gripping edges, along with slide hammers and counter stays in various sizes and two retaining ring pliers. Internal parts of various sizes can thus be safely and versatily extracted.

RANGE OF APPLICATION

For use and storage in workshops and industry.

BENEFIT

- Compilation based on many years of experience for application in various industries
- Central availability of the products for every employee
- By storing on the wall panel, the completeness of the assortment is visible at a glance.
